RECOMMEND COUNCIL TO IMPROVE FIRE PROTECT'N

Ratepayers Meeting Asks For Motor Truck For Engine, Mains, Hydrants

The meeting of the ratepayers and the council last Friday evening was well attended, there being from twenty to thirty ratepayers present. The council was fully represented, with Reeve W. E. Butchart in the chair.

The first business taken up was that of the advisability of laying mains to cover the business part of the town, the mains to be run from the water tank at the Imperial Hotel. The mains will be fitted with hydrants.

Mr. Butchart explained the present understanding with Mr. Mutz regarding the use of water from the tank. The council paid him \$60 a year; the tank was capable of supplying 800 gallons an hour. The proposition was that Mr. Mutz should be approached in regard to placing the tank higher so as to allow a better pressure. It was finally decided to leave the matter in the hands of the council to get more particulars. Then it would be submitted to the ratepayers.

In regard to the purchase of a motor truck on which to mount one of the engines to ensure speed in getting to an outbreak, there was much argument. Some thought that the investment would be wasted money, while others thought that a few minutes saved in arriving at a fire would pay for the cost of the truck. Some suggested the use of the town team, others the employment of private trucks to trail the engines to the scene of the fire.

In the final a motion was made that the council be recommended to purchase a truck. To this an amendment was made that the council do not consider the purchase of a truck. The motion was carried.

Mr. A. G. Spooner presented a petition to the council asking for a municipal skating rink. There was some argument against it, not in opposition to the idea, but in opposition to the idea of spending money on it when the district had no hospital, and the consideration that in a little while the district would have to think of an enlarged school. However, the vote in favor of the council making application for debentures to construct was almost unanimous. Guy W. Johnson mentioned that while the council were about it they might consider the construction of a swimming pool, a great necessity in a town like this.

The matter of the granting of a franchise to Mr. Mutz by the village was talked over, but nothing definite was arrived at.

LOCAL NEWS

Mr. Richard Neil, who has been visiting his brother in Montana, returned on Friday.

Mr. and Mrs. F. A. Elves and little son, who have been at the coast for the winter, returned to Vulcan last week.

Les Middleton, who has been in training in the U.S. army returned to Vulcan last Friday.

Mr. Claude Clark, who has been spending the winter in California, was a business visitor in Vulcan on Monday.

Mr. Long, of the Bank of Commerce, Calgary, has been transferred to the Vulcan branch.

Mrs. T. A. E. Lally, of Spokane, is at present in Vulcan visiting her husband, who is in this district looking after his farming interests.

Mr. A. G. Spooner, who visited Calgary for the week-end, was taken ill there on Sunday morning. His illness is not serious.

Mr. D. B. Sims, who has been visiting relatives at Chilliwack, B.C., returned to Vulcan last evening.

The weather during the past week has been reasonable. There has been some slight snow and during the day-time it has thawed considerably.

DEATH MRS. S. W. GOLWELL

The death occurred on Friday, March 21st, of Mrs. Samuel W. Colwell, from complications ensuing upon influenza.

The deceased leaves Mr. Colwell and one child to mourn her loss. She was 39 years of age, and had long been a sufferer with asthma. Mr. Colwell and the little girl were both sick with influenza at the time of Mrs. Colwell's death. They are now reported to be convalescent.

The funeral took place on Saturday morning at Vulcan cemetery.

BERRYWATER RED X SOCIETY SHIPMENT

The Berrywater branch of the Canadian Red Cross Society have forwarded to the Provincial headquarters the following supplies:

6 pairs socks, 7 amputation dressing covers, 13 suits pygamas, 70 pillow cases, 30 binders, 17 bed socks, 20 T. bandages, 12 slings, 10 hot water bottle covers, 10 P.P. bags, making a total of 285 pieces.

MAY ALLOW FREE TRANSPORTATION FOR FEE

There is a qualification to the report that the Dominion Government may extend the free transportation on feed.

It was reported on Saturday that a wire had been received by the Alberta Co-Operative Union from J. H. Girdale to the effect that the Government would extend this privilege. What the telegram stated was that it was "hoped" that arrangements for free transportation would be made.

Definite information on this point is expected from Ottawa at an early date.

BLACKIE AND CHAMPION TO SEE HEARTS OF THE WORLD

If "Hearts of the World," one of the masterpieces of filmdom, does not show at Vulcan on April 4th and 5th owing to the 'flu ban—announcement will be made later—it will show at Blackie on Tuesday, April 1st, and Champion, April 2nd.

A meeting of the financial committee of the Marquis Municipal District will be held at the Vulcan offices of the Secretary-Treasurer on April 1st, at 2 o'clock p.m. The committee consists of Messrs D. Sinclair, R. Brodrick and Shouldice.

LOMOND IS LINING UP FOR A BASEBALL TEAM

Lomond sports are not going to be left in the lurch as regards baseball. They have already got things going and early developments may be expected. The Lomond News says:

A very enthusiastic baseball meeting was held in the Lomond Realty Company Offices Wednesday night and a real live organization was effected to further this sport during the coming summer. The general idea expressed was, as far as possible to develop a strictly local amateur team and endeavor to organize a league along this line of railway, say with Travers and Enchant and perhaps outlying district teams that might care to get into the game. The club is considerably in arrears financially, owing to circumstances of which the public is already aware, and to get on a new footing a dance and box social is being advertised to take place Wednesday, March 26. An effort will be made to obtain a cup for stimulation on the proposed league schedule. The officers elected for the year are as follows: President, J. H. Williamson; Vice-President, Duke Armstrong; Secretary, R. N. Shields; Manager of team, L. M. Swain; Executive Committee, W. A. Teskey, Frank Brown, C. H. St. John, W. A. Macdonald and R. L. King.

HEARNLEIGH NEWS

Mr. Spiller, of Eastway, has bought over the premises owned by the late Charles Thomas. The store is being renovated and enlarged and will shortly be ready for business. All we need now is a blacksmith shop and a train.

Mr. James Robson is acting mail carrier for the Hearnleigh district. We must also thank Mr. P. Storey and B. Hopkins for carrying in the mail during the stormy weather.

Missing from the Hearnleigh Post Office and R.R. No. 2, since February 22nd, one mail carrier, tall, good looking, and an affable disposition; answers to the name of John. Information regarding his whereabouts will be gratefully received by any of the patrons of the above post office.

Mr. and Mrs. W. Hill are receiving congratulations on the birth of a daughter, at Calgary.

GUY JOHNSON TALKS ON BENEFITS CO-OPERATION

Mr. Guy Johnson, President of the Alberta Co-Operative Union, and secretary of the Vulcan Co-Operative Company, addressed the members of the High River U.F.A. last Saturday. Mr. Johnson took for his subject "Co-Operation in Principle and Practice."

The speaker dealt with the principles of co-operation from the world standpoint, and recommended it as an antidote to the growth of industrial unrest which is leading toward anarchy throughout the world.

There was a good audience, who were enthusiastic about co-operation in regard to their own affairs.

MAY STOCK THE LAKE MAGGIE FOR WITH FISH

Project Brought Before The Dominion Gov't; May Be Early Action

That Lake McGregor may become a fisherman's paradise in the near future was the hope awakened by Guy Johnson at the Council meeting last week.

Mr. Johnson mentioned that he had been in touch with the Dominion officials as to the question of stocking Lake McGregor with suitable fish for the purposes of sport, and improving the place generally by the planting of trees. He said that the officials had replied that the matter would be given consideration, and if they concurred with the idea they would send inspectors down to look over the place.

NO MEETING REID HILL WOMEN'S INSTITUTE

The April meeting of the Women's Institute has been cancelled owing to the 'flu epidemic. The meeting will be held early in May, the exact date of which will be published at a later date.

Watch for the big minstrel show which is going to be given in the near future. Some of the boys want to start a town band, and this is one of the ways of raising the initial expenses. It will be some show, too, judging by the bunch who are taking part. Watch for it.

A WELCOME HOME FOR HEARNLEIGH SOLDIERS

J. Carruthers And H. Amey Recipients Of Goodwill And Purse Of Gold

On Friday evening, March 21st, a Welcome Home under the auspices of the Berrywater Union of the U.F.A., was held at Berrywater school-house for Ptes. John Carruthers and Harry Amey, two members of the Local, late of the 50th and 175th Battalions, C.E.F., recently returned from France.

Quite a number of the residents of the Hearnleigh, Eastway and surrounding districts were on hand to honor their old-time neighbors and congratulate them on their safe return.

The chairman in an opening address, welcomed the soldier boys, and presented each of them with a purse of gold as a small token of friendship and esteem on behalf of the community.

Mr. Amey and Mr. Carruthers, in replying, thanked the gathering for the presents and gave short addresses outlining their experiences while overseas.

Songs and recitations were next in order until supper was called, after which dancing was indulged in until the early hours.

The ladies of the district with their usual generosity, provided cakes for the supper. Thanks are also due to the following ladies and gentlemen assisting in the programme: Mesdames Alfred Houghton and Neil Campbell, Messrs. P. Storey, N. Campbell, W. Hopkins, C. Carr and W. Houghton. Messrs. A. McIntyre and F. Messenger gave their services as musicians for the dance.

ARTHUR MITCHELL, A PROMINENT LOCAL MAN DIES FROM INFLUENZA

Town And District Loses One Of Its Most Progressive Citizens

The town and district received a shock on Saturday when the death of Mr. Arthur Mitchell was announced. Although it was known that he was seriously ill it was generally thought that his youth would pull him through a crisis which to an older person would have been fatal. But it was not to be, and after a week of suffering he passed away on Saturday afternoon at two o'clock a victim of influenza and pneumonia. While there seemed to be no cause for immediate concern in the opinion of expert medical advice, he took a sudden turn for the worse about two hours before he died.

Mr. Mitchell was taken ill on the Sunday previous to his death, and it was a surprise that it developed into influenza as there were no evidences of it around town.

On Monday evening at 6.30 a short open air funeral service was conducted at the residence by the Rev. A. R. Schrag, who referred in brief terms to the pathos surrounding this sorrowful bereavement, and pledged the helpful interest of the community to the widow and fatherless children, all three of whom are favorably recovering from an attack of the same malady.

Following the service the body was conveyed in procession to the depot, and the remains, accompanied by Mrs. Mitchell, Miss L. Jackson, Mrs. Knowles, Miss McLellan, Rev. A. R. Schrag, Mr. H. W. Reeves and Mr. A. G. Dickinson, were taken to Calgary and deposited in Shaver's undertaking parlors.

On Tuesday afternoon the Rev. A. R. Schrag conducted funeral service in the Parlor Chapel, at which there was a fully representative gathering from Vulcan, High River and Calgary. Mr. and Mrs. Jackson, of Munson, were also present. The service was impressive, and during the course of his remarks, Mr. Schrag very fittingly expressed the appreciation of the community of the personality of the deceased. He dwelt upon the contribution he had made to the progress of Vulcan and surrounding district by his optimistic vision of its

DEATH MR. P. M. NEVINS

Following the death of his wife and baby last Tuesday, Mr. Paul M. Nevins passed away last Saturday morning, a victim of influenza.

The late Mr. Nevins, who was 37 years of age was well known throughout the district, and one of the most highly respected men in the district. He came from Nilwood, Ill., and has been in this district since 1904. In 1912 he married Miss Lessie Kenny, whose mother is resident in the Lomond district. She was a sister of Mrs. R. McLeod, and Perry and Adam Kenny of Nanton, and Charles Kenny of Lomond. Mr. Nevins leaves a little son, a father and mother and three sisters to mourn his loss. Two of his sisters are resident in Idaho Falls, and one in Carlinville, where his parents also reside. They will be in Vulcan for the funeral, which takes place from the Oddfellows Hall at half past two o'clock, tomorrow Thursday.

DEATH OF MR. E. PITTS

The death from influenza occurred on Saturday morning, March 22nd, in Vulcan, of Edward Pitts, at the age of 57 years.

The deceased was born at Leigh, Gloucestershire, England, and came to Canada about 34 years ago after a short term of residence in the United States. He travelled between the two countries quite a lot at first but finally made Canada his home. He was not married, but leaves three brothers and one half sister to mourn his death. Two of his brothers are resident in England. The third brother, Mr. Alfred Pitts, resides in Wisconsin, but is in Vulcan for the funeral.

The deceased came to Vulcan district about two and a half years ago. Two years ago he entered the services of Mr. R. Dodds, at the Vulcan Livery barn, where he has been ever since.

The funeral will take place at Vulcan tomorrow, Thursday.

The High River Curling Rink sent two rinks to Vulcan last Wednesday. They won three out of four games.

future, his enterprise and aggressive-ness in pushing forward and supporting every movement that made for a lively and wholesome community. His friends were numerous, for he had a faculty of awaking confidence in those whom he met. His geniality and ardour in parties and social functions of the village life marked him out as one who recognised the incalculable value of good fellowship. He could always be counted upon to support any measure that led toward religious and moral betterment and conditions. He was of the Anglican faith.

The interment took place in the Union cemetery, Calgary, the pallbearers being Messrs A. W. Kelly, G. Young, of High River, and N. Young of Ensign, and H. W. Reeves, A. G. Dickinson and O. L. McPherson, of Vulcan.

Among the floral tributes were a massive pillow from mother and children, wreath from the Jackson family, a broken wheel from the Vulcan Curling Club, pillow from the Vulcan Church Ladies Aid, besides numerous sprays and wreaths from a wide circle of sympathetic friends.

Mr. Mitchell was 34 years of age. He was a native of Picton, N.S.W., Australia, and has no immediate relatives in Canada. He leaves a father and four brothers and two sisters, all resident in the Antipodes. He came to Canada in 1910, settling at High River, where he entered the real estate offices of Messrs Roberts and Hunt, and later came to Vulcan and founded the firm of Arthur Mitchell & Company. In 1912 he married Miss Gertrude Jackson, of Orillia, Ontario, and three children Bonnie, Betty and Dorothy blessed the home. His business career in Vulcan was almost phenomenal in its success and he was widely known in business and political throughout Southern Alberta.

The Advocate joins with the many friends of Mrs. Mitchell and family in extending their condolence at this sorrowful time.

ORGANIZE CENTRAL UNION CO-OP. SOCIETIES, ALTA

At Meeting Held In Calgary; Officers Elected; Guy Johnson Is President

On Wednesday, March 19, a central union of Alberta co-operating societies was effected under the above name. Fifteen active trading associations were represented at this first convention. It is confidently expected that at least twenty more of the live trading co-operating societies of the province will join the movement as soon as the advantages of the union are made known to them.

The objects of this new union, as outlined by its bylaws, include the propagation of co-operating principles through a continuous educational campaign, the protection of constituent societies of joint action, assistance in the organization of new societies where the co-operative spirit warrants and mutual assistance to one another through exchange of business information.

In the informal discussions which occurred many ideas of value and interest were brought out. The question of a central buying agency aroused considerable interest, but it was unanimously agreed that this matter could be left to work itself out in the future.

Election of officers resulted as follows:

President, Guy W. Johnson, of the Vulcan Co-Operative Company.
Vice-President, S. J. Ewing, of the Irricana Co-Operative Company.
Directors: R. N. Mangler, of the Youngstown U.F.A. Co-Operative Association; R. S. Law, Claresholm; O. L. McPherson, of the Vulcan Co-Operative Company; W. Frantzen, of the Nanton Co-Operative Association, A. A. Hall, of the Crossfield District U.F.A. Co-Operative Association.

LOCAL NEWS.

The Calico Ball which the Oddfellows were to have given has been cancelled until further notice.

An endeavor is being made to organize an auto club at Lomond using the slogan of the Alberta Motor League—"Good Roads Lead to Good Towns." If the idea appeals to you the expense is negligible, and the ultimate idea is the affiliation with the Alberta Motor League.

The Medical Health Officer and Health Board, decided last week-end to close down all public meetings in Vulcan until such time as the present epidemic had passed away. A hospital was opened last Friday in the building which used to be the Morton Boarding House, Neptune Street.

Owing to the illness of Mr. J. H. Cook, our village dairyman, deliveries of milk will not be made and his customers are requested to bring their bottles and pails to Messrs H. W. Reeves store in the morning. The milk will be sold at 15c per quart, straight, during this arrangement. There need be no fear of infection from this source.

A telegram of protest against cancellation of the free shipment of hay and feed from Northern points was sent to the Hon. T. A. Crear, Ottawa.

The Board appointed Mr. S. O. Tregillus, Loughheed Building, Calgary, as Secretary.

THE REAPPEARANCE OF THE FLUE

The reappearance of the influenza epidemic in Alberta fixes upon the public the responsibility of precaution. There is no need for anyone to grow panicky about it or to rush to unnecessary restrictions. But the situation does require a proportion of commonsense and care. If that as a general rule is carried out there will be no need for the wearing of masks and the closing down of public places. The previous epidemic showed that many of the restrictions taken were so much time wasted, and medical opinion in the United States is to the effect that the closing down of the schools during the 'flu did little or no good inasmuch as children with no school to go to resorted to other means of congregation. In fact, the only advice that can be given is that the individual exercise his own care and moral responsibility in preventing, as far as possible, the spread of the influenza either in his own or any other family. The situation must be treated sanely and with due precaution.

"CANADIAN MANUFACTURERS AND THE TARIFF"

Under the above title the Canadian Manufacturers Association have recently issued a pamphlet showing their position in regard to the demands of the Western Grain Growers for sweeping reductions in the Canadian Customs Tariff, with a view to ultimate free trade.

The pamphlet is a plea for the continuance of the tariff during the period of reconstruction, as otherwise there would be danger of trade depression and unemployment, and speaks also of the part played by the Canadian manufacturers during the war.

While everybody is wanting to give the pamphlet a fair reading and the ideas contained therein fair consideration, it appears that the publishers thereof are abrogating unto themselves the sole responsibility for the continuance of Canada's prosperity. It is urged that the tariff controversies be postponed until the country has settled the immense problem of reconstruction from war to peace conditions. Now, while this arrangement may suit the manufacturers, they are not the whole of the country. Granted that it requires the artificial prop of protection to tide them over, what about these workers

to whom the tariff means nothing but hindrance. The farmers, for instance, where are they going to stand under a continued tariff? And is not agriculture the chief reliance of the country? Already that calling is crippled and held back by impositions which are unjust. Why should it be put back still further in order to keep the manufacturers at ease in their own minds?

Now is decidedly the most opportune time for taking this question up and consideration it in its relation, not to the welfare of the manufacturers, but in the interests of the whole country.

If we were a country of manufacturers solely, there might be some reason for seriously considering the continuation of tariffs, even during the period of reconstruction, but as we are not, but have other interests just as important as manufacture, the question of the tariffs must be given immediate and full consideration.

THE LADY AND THE GLEAM.

Once upon a time there was a lady. This a true story and the lady never originated a thing. She always believed what she was told and was A1 on the copy. She followed the Gleam, if you want to talk high-brow.

She heard that it was Wonderful how many Cents you would have if you Kept Every One that came your way and put it into a Jug till there was not even Standing Room Inside. She believed the Tale and hunted up a Jug. Then she Pestered the Life out of Shopkeepers and curled many Grey Hairs around her Temples in the effort to make all her Change come back in Pennies. What did you say?

Honest? of course! Everything's honest in Love and War.

Well, the Jug became Full instead of Empty. And where did the Gleam lead the Lady? You'd never guess! Straight across the Continent! She started in Boston and Gleamed all the way to California on the Jug full of Pennies. Honest she did!

What a lady has done another can Gleam. Just think of the possibilities in Thrift Stamps.

EDITOR GLAD TO MAKE RATE UNDER OLD CONDITIONS

One man who called in a country newspaper office recently was firm in his idea that the Editor was in the profiteering class because the price of the paper had been raised to \$2 a year.

In looking up his subscription account it was found that when the price was \$1 he had paid his subscription with eggs one year and the editor was glad to offer him the paper for \$1 again provided he brought in the same amount of eggs. In this case it was nine dozen. But he refused and he refused and preferred to pay the \$2.

In looking over the books of the "good old days," it was found another man had presented a case of honey for two years' credit; another a dressed turkey in lieu of the dollar. Anyone who made such exchanges in the past, says the editor, is more than willing to duplicate the offer on the same basis.

DOCTORS' FEES.

Mr. Montgomery, the member for Wetaskiwin, declares that doctors have been charging outrageous fees and calls upon the legislature to fix these. This is hardly fair to the profession as a whole. It is the experience of most people that those who overcharge are in a minority.

As for having a fixed fee, that would put an end to the system by which a doctor varies his charges according to a patient's circumstances. Most of us would be worse off if this system were abandoned. The doctor's work is different from that of other people. If he refuses to treat an urgent case on the ground that he cannot see where the money in payment is coming from, we denounce him and quite rightly. There are very few doctors who fail to answer such a call, regardless of what there is in it for themselves.

The result is that a large part of a man's practice brings him in nothing. Other cases, where patients are in poor circumstances, bring him in little. Is he to be blamed that if when he knows a man well-to-do, he makes out his bill accordingly.

A person of a severely logical turn of mind might argue against the system. But it works out fairly in most cases. It is in keeping with the principle that we adopt in our public taxation of making a man pay in proportion to his means. To make all pay their doctors according to a certain scale, as Mr. Montgomery suggests, would be for the benefit of the more wealthy citizens.

—Edmonton Journal.

Thursday night's meeting with the council to consider the fire protection question resulted in an expression of opinion from the ratepayers, which is a step in the right direction as being indicative of a certain amount of public interest in the affairs of the village.

Primarily it must not be overlooked that fire fighting, like fighting anything else from pestilence to enemy countries, costs money if it is to be done with efficiency. The cost must not be considered on its value as an initial outlay, but in its capacity for saving property, life, and, under adverse conditions such as wind, possibly the whole village. Other towns are up against this problem, but none have solved it by counting the cost as the most important item. The system must, above all things, be efficient if it is to do its part, and efficiency costs money.

The proposition of a skating and curling rink, municipally owned, did not take long to consider as it is something everybody from the youngest to the oldest wants. It is a necessity with us in the winter as there is nothing else to do but skate and curl if outdoor exercise is required.

The United States Senators who are trying to pick holes in the League of Nations idea are evidently under the impression that they can teach their grandmother to suck eggs.

According to statistics one out of every nine marriages in the United States terminates in divorce, so why criticize the trial marriage system which is coming so much to the fore in European calculations these days.

According to Mrs. Ralph Smith of Vancouver, fifteen men have Canada in their grip. Mrs. Smith does not say how many women have the strangle hold over the same area.

In the Dominion House recently Col. Currie said some very unkind things about Mr. H. W. Wood. As Col. Currie is a manufacturer and Mr. Wood is the leader of Alberta farmers, the cause of it all is abundantly clear.

The tariff question is right on the top these days. As it lies at the root of Canada's commercial system, why is it not a fit subject for immediate discussion while reconstruction is on the carpet?

The Thrift Stamp will not only save money but it will save trouble in the future.

March 21st lived up to its reputation of being the first day of the official Spring, and we hope that the weather man does not repent of having started on the schedule.

The present style of dancing is said to have originated in the dives of New York, a statement one can very well believe at witnessing some of the select couples on the floor these days.

While the police at Sydney, N.S., were busy putting out a fire some burglars made a get-away with some liquor. Their intentions it is supposed, were to look after it until the police returned.

The Hamilton Board of Trade has forwarded a resolution to the Premier protesting against any tinkering with the tariff, which, among other things, goes to show the class from which Hamilton's population is drawn

School Fairs in Alberta

School fairs have been conducted in Alberta for three years by the Provincial Department of Agriculture in co-operation with the Department of Education. In order to introduce the Fairs and enable the people of the Province to judge the value of the School Fair movement, the government has assumed the larger part of the expense and work. Home gardens and School Fairs have so far demonstrated their value that there is now a strong demand from different parts of the Province for the continuance and extension of the work.

To extend the work and serve the maximum number of districts it has been found necessary to make some changes in the plan. Two important changes have been made; first, the Agricultural Schools have been given direction of the work in their respective districts; second, the communities in which the Fairs are being held are being asked to assume a greater part of the expense and work than has been the case heretofore. On condition that a committee of local people will assume, for their community, the responsibilities outlined in this circular the Department of Agriculture will make the following contributions to a School Fair.

1. Through the Schools of Agriculture, send an organizer and supervisor where needed.
2. Supply seeds to the pupils of schools participating. The average value of the seeds will be about \$8.00 per school.
3. Print instructional circulars for distribution among the pupils.
4. Supply mounting cards for plant collections and pins for insect collections.
5. In co-operation with the committee prepare and print the prize list.
6. Print Entry forms, Entry Tags and Prize Cards for the Fair.
7. Grant livestock prizes to the extent of \$25.00 per Fair.
8. Provide Judges for the Fairs.

Responsibilities of the Committee:
1. Select the schools to be included. The group should consist of from 8 to 25 schools.

2. Send to the School of Agriculture at Claresholm a list of the schools which are to be included. A form is provided for this purpose.

3. Receive the seeds and deliver them to the representatives of the schools.

4. Raise the money necessary for the prizes other than those provided by the Department. The Committee may adopt any method they desire to raise this money, but it is suggested that the Board of each school participating be asked to contribute a definite amount. Ten dollars per school should be sufficient.

5. Make all local arrangements necessary for the success of the Fair.

Points to be considered in Organizing and Conducting a School Fair

1. The School Inspector should be consulted before definite action is taken toward selecting a group of schools for a Fair.

2. The Committee which has charge of the Fair, should, if possible, represent the various existing organizations for the promotion of Agriculture.

3. For the purpose of discussing the entire plan it might be desirable to hold a meeting at which there would be representatives of the schools concerned together with as many of the teachers as could attend. If notice of this meeting is given to the School of Agriculture every effort will be made to have a member of its staff attend.

4. Some member of the Committee, preferably one living at or near the centre, should be appointed to con-

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, Friday, the 18th April, 1919, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, twice per week on the

VULCAN RURAL ROUTE No. 2, from the 1st July next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of tender may be obtained at the Post Offices of VULCAN HEARNLEIGH and ARROWOOD and at the office of the Post Office Inspector.

Post Office Inspector's Office, Calgary, 7th March, 1919.

D. A. BRUCE

Post Office Inspector.
83-8

duct all correspondence and receive material sent from the School of Agriculture.

5. The Prize List submitted should be discussed at the earliest date convenient and returned to the Agricultural School in order that lists may be printed and distributed among the pupils before the schools close.

6. It may be advisable for the Committee to interview the local bank manager with a view to securing the Canadian Bankers' Association prizes for Live Stock.

7. In a district where a representative of the Department of Agriculture is stationed a Committee will be able to get information and assistance by application to him.

8. The forms, giving lists of schools and information regarding them, should be returned promptly to the Agricultural School. As soon as the list of schools is received, Forms will be sent to the teachers on which they will make application for the seeds required by their pupils. This part of the work must be attended to promptly so as to insure the delivery of the seeds before planting time.

MORE "JAZZ"

The High River "Jazz" will appear in Raymond again on the 19th of this month. A little more suggestive music, we don't think. No more suggestive than any of the modern dance music. They play just the same tunes as are being played to every dance in the Opera House. Possibly a little more noise than we are used to hearing but that is all. Of course, "Jazz" is not music in the true sense of the term. Neither is any of the popular dance dope. Do you know where the dance dope of today originated? In some of the lowest dives in New York and Chicago! and only a few years ago, too. At that time and it is the case in a great many instances, the composers of that so-called music did not attach their names to their work but used a "nom de plume." Any reason do you think? Why most certainly! But no need to discuss that phase, now.

Some of our prominent men, both business and religious, are incensed at the High River Jazz because of the suggestive music played by them. We hold forth that their music is no more suggestive than any music which is being played at the local dance hall. It is just as possible to "Rag" and "Wiggle" and "Hug" to one popular dance tune as it is another. Augmented orchestra and different kind of instruments make no difference.

We would like to say, if you will permit the editor to be personal, that during the four years spent by him as Director of Music of the Knight Academy, that only the highest class dance music was played by K. A. orchestra. It was unanimously decided by the faculty of that institution that "Ragtime" could not be tolerated. And only on one or two occasions was it necessary to reprimand students for playing "Rag." They understood the ruling and they abided by it. Being musically inclined, and being a lover of high-class music we stand ready to do our part in introducing into our dances, if we are able to organize an orchestra, which we are trying to do, first class music, and in educating our children, your children, up to the music of the highest order. It is not our desire to deprive our young people of any enjoyment, but we are positive that they can enjoy dancing just as much to good music as they do to "Ragtime." Do not let this article pass by unnoticed, you men who were so incensed over the High River Jazz, but do something in the right direction and you will find the musical element of the town of Raymond behind you.

Two Irishmen met at a country fair and held the following conversation: "Ah, Pat, sure, is it you?" "Yis, an' it's been a long time since we met. What's the news?" "It's married I am, and I have a little boy who looks just like me." The other surveyed him critically for a moment and then replied consolingly. "Well I shouldn't mind so long as he's healthy."

Lady Laurier has received over 2,000 letters of condolence since Sir Wilfred's death.

WARNINGS TO ALL MOTOR CAR OWNERS

The toll of life and limb taken by automobiles in recent years has led to a general crusade against carelessness on the part of both drivers and pedestrians.

Drastic laws governing the use of streets and highways have reduced accidents considerably in some sections but public authorities admit they will be powerless to do much without the active backing of public sentiment and the co-operation of the people.

Here are some specific rules that every person should keep before them. Don't cross the street between blocks. Remember, vehicles have just as much right to the road as you have.

Never carry on conversation while crossing a street. Never try to read while crossing a street. Never hold an umbrella so you cannot see approaching traffic.

Never alight from a moving car. Wait for it to stop. Always observe the movement of traffic when alighting, before crossing to the walk.

Warn children not to hitch on cars or vehicles, or play or skate in the path of traffic.

If you drive a vehicle, learn the traffic rules of the particular place you travel through.

Remember the pedestrian has just as much right to the road as you have.

Don't disregard danger signs. They are put up for your protection.

Carry a warning signal of some kind and use it.

Stop before you cross railway tracks.

Examine your brakes and steering gear frequently.

If you see a drunken driver have him arrested, for your own safety and his.

Speeding will only get you to one place quicker—the grave.

CLAIMS LESSEE

DON'T FARM RIGHT

A case of considerable interest to farmers is that of Warner vs. Linahan, both of the Retlaw district. It came up at the appellate court at Edmonton on Monday, and judgment was reserved.

The case was tried before Mr. Justice Simmons here in the Supreme Court last Fall and the action was dismissed, with the appeal following.

Warner was suing for possession of his farm, which he had leased to Linahan for a period of five years on crop payments. His contention was that the latter had not farmed in a proper manner in carrying out the obligations of the lease.

Messrs. Hogg and Jamieson are counsel for appellant, and Ball and Cameron for the respondent.

—Lethbridge Herald.

If this nice weather keeps seeding it will be the next proposition for the farmers, and they will not mind that in the least. The Spring is opening up just as everyone could wish it would.

FILL IDLE MINDS AND HEARTS

"Satan finds some mischief still for idle hands to do," was the maxim which an old Scotch schoolmaster used to hurl at our heads. Viewed with the judgment of maturer years I've wondered much why he didn't mull it over to himself, and visit our homes to impress it on our parents. For if anyone needed the saying it was not the youngsters who got into the mischief, but the adults who failed to supply proper fun and interesting work for the active children committed to their care.

The Children's Bureau of the U.S. Department of Labor has published some interesting findings on the effect of this lack of supervision. Out of one hundred and eighty-five children who were guilty of delinquency, only about thirteen were mentally deficient, it was found that these normally bright children were led into trouble because of "lack of opportunity for moral and mental training for recreation, and lack of variety of interesting occupations with promising futures."

Few normally bright children deliberately go wrong. Idleness is one contributing factor. They have nothing to do, and as a result drift into mischief, not malicious mischief at first, but idle mischief which little by little leads to deliberate wrong doing, destruction of property or perhaps theft.

Wholesome recreation is thus provided for the school child, and in addition night schools in winter and vacation schools in summer offer a "variety of interesting occupations with a promising future." The boy and girl are given every opportunity to make the most of the life so far as schools can help them. And best of all, they are supervised. Instead of being left to grope in the dark, their efforts are directed by the teachers.

Public playgrounds, gymnasiums, swimming pools and skating ponds are still in the future for most rural children. But conscientious parents can supply their place if they make the effort. When you give the order for concrete pens for your porkers and watering troughs for your stock, go a step further and order a swimming pool for your children. Children rightly handled are a more paying investment than live stock. Fit up the parlor of the spare bed room for a gymnasium. A punching bag, horizontal bars and boxing gloves cost but little and pay for themselves a hundred fold if they help keep the boys at home and out of mischief. Plan for games for long winter evenings. If you are opposed to playing cards there are dominoes, checkers, and chess, flinch and a dozen other games.

Recognise the fact that the child must be amused. He must have fun and he is going to get it some way, if not in a lawful way under your eyes, then unlawfully. Keep him interested in work or play. But above all, keep your eye on him. Not oppressively of course. Don't snoop nor spy but just the same know what your boy or girl are doing and who are their friends and playmates.

Wholesome recreation suitably supervised is the crying need of young folks, especially in the country and small towns. The young folks of cities fare better in this respect than country children, in spite of the advantage of outdoors. For what is the use of outdoors if there is nothing to do, except to work, from a child's point of view? Cities have their public playgrounds with swimming pools, swings and piles, May-poles, base ball diamonds, tennis courts, everything for wholesome sports with the added advantage of a supervisor. In winter there are the skating ponds and the Y. M. C. A. with its swimming pool, indoor baseball and game tables. Libraries offer books and story telling hours, and churches keep open house with their gymnasiums.

Children naturally must be busy. So well accepted is this fact that when a child sits down quietly we instantly decide he must be sick. And yet we fail to make provision for this immutable law of child nature. The baby, from the time he creeps until he passes out of babyhood, is the most striking illustration. We say every day, "Wouldn't you think he would get tired and want to sit down and rest?" But he never seems to. All day long he trots about investigating, and mothers, recognizing the principle of keeping him out of mischief by keeping him interested, coax him from the things he should not do with a promise of a different amusement or a new toy.

The very young child is provided for, possibly because it takes so little to amuse him. A string of spoons or buttons, a box of clothes pins, a spoon and a sand pile, a ball made out of twine, these will furnish the young child amusement. But when he grows older, passes into school

A CURE FOR INFLUENZA

The Advocate is in receipt of the following cure for influenza from a resident of the Reid Hill district, who used it with great success during the previous epidemic. He states that part of his family were down with the trouble, but conditions were such that it was impossible to get the doctor at once. He therefore came to town and secured the following prescription, which, he says, saved the suffering members of his family.

Ingredients: Pure Phenol, Calvert's No. 1, (prepared for internal use) 24 drops in an eight ounce bottle of water, well mixed.

Dose: Two tablespoons in a wine glass of water three times in 24 hours.

Children, half the dose. One dose will be enough to prevent; three doses to cure. The dose to prevent should not be taken until the symptoms of influenza, cold, chill, pains, etc., show themselves; then one dose will prevent it in less than an hour.

This recipe came originally from a physician in the West Indies, who used it as a remedy in malarial and other fevers.

GROVE ON FARM IS WORTH \$1,000

That is Finding of Mr. Justice Stuart in Supreme Court Case

Trees on farms are valuable.

Such is the finding of Mr. Justice Stuart of the Supreme Court of Alberta in the recently tried case in the Supreme Court here of Pawson vs. Tangye. The plaintiff was the owner of a farm at Coaldale upon which a grove of growing trees was situated; he rented it to the defendant, Tangye, and Tangye permitted stock to injure the trees. Judge Stewart in his decision found the defendant was liable in the sum of \$1,000. S. S. Dunham and A. E. Dunlop, K.C., represented the plaintiff, and R. Andrew Smith represented the defendant.

An interesting feature of this case was the evidence of Arch. Mitchell, who stated that while he was in the employ of the Dominion Government inquiries were sent to each farmer who had planted trees under the supervision of the Dominion service asking what they considered the increased value of their farms were by reason of their groves and no farmer reported the value of his grove at less than \$1,000, and many said more than that amount.

This should be interesting to our farmers in planting trees even from the strictly monetary value to the land.

—Lethbridge Herald.

days, learns to read and to play with his fellows, we lose sight of the basic principle that he must be kept always busy unless he is to get into mischief and then mischief is indeed begun.

The Ponoka Herald is authority for the statement that a farmer sold land at Rimby, 35 miles from that town, at \$65 per acre, and with the proceeds bought land abutting the Edmonton city limits for a smaller figure. This is as interesting a bit of real estate news as has come through for some time. It serves as a very effective sequel to that story which was told so often some years ago

about a man who wanted to trade his farm for some city lots. The agent rushed him out by motor to the lot, and then asked to be shown the farm. "Oh," said the farmer, "We passed it two miles down the road."

A peace memorial bridge over the Niagara, between Buffalo and Bridgeburg, Ont., is proposed.

OF FARM INTEREST

750 BULLS WILL BE SOLD AT CALGARY

Sale April 7th Will Be One Of Biggest Livestock Events In Years

The fact that 750 bulls will be offered at the Calgary Bull Sale on April 7th to 10th makes a visit worth while to stockmen, even if not in the market for bulls. The breeders of pure-bred stock in Alberta have been buying the best stock that could be found anywhere to head their herds, and the stock from these herds is being brought to the sale in larger numbers each year, with the result that the Calgary sale has become the best place to buy high quality bulls, as well as strong bulls for the range.

The animals will be judged all day Monday, April 7th; the annual meeting of the Alberta Cattle Breeders' Association will be held that evening in the Palliser Hotel, and the sale will take place morning, afternoon, and evening, the 8th, 9th and 10th. Special passenger rates of fare and one third for the return trip have been put in force, good going 6th to 9th, returning up to the 12th.

The Association pays the freight to the purchaser's nearest railway station in Saskatchewan, Alberta and British Columbia points at a nominal rate and the animals are loaded on the cars by the Association.

This sale will present the best offering ever made at the sales of the Association. The entries include 6 Galloways, 255 Herefords, 370 Shorthorns and 123 Aberdeen Angus from the best herds in Alberta. The bulls will be sold in the order given above, those born in 1918 will be sold first, then those born in 1917 and so on.

In connection with the new range regulations, it may be mentioned that the Association is putting in a vat at Victoria Park and will arrange to take care of dipping and feeding for the sellers and purchasers on a reasonable basis, in order that the regulations will cause the least inconvenience.

Catalogues of entries may be obtained from E. L. Richardson, secretary Alberta Cattle Breeders' Association, Calgary.

The Spring Horse Show, to be held at Calgary March 25th to 28th, will be the most interesting held since the beginning of the war. A splendid list of entries has been received, and the competition will be exceedingly keen. Mr. Wm. McKirdy, of Nainika, will judge Clydesdales, Shires and heavy draft horses; Prof. A. A. Dowell, of Edmonton, will judge Percherons, Belgians and Suffolk Punch; Mr. Wm. Lowes, of Edmonton, will judge Hackneys, Standard breeds and light horses. Most interesting evening programmes have been arranged including jumping, driving and saddle classes, tent pegging, roping, cow horse class, etc. Special rates of a fare and a third will be in force good going March 24th to 27th, and returning up to the 31st.

The Farmers platform practically embodies the sentiment and the sympathy of a solid West. It should have a marked effect on Sir Thomas White in the framing of the new budget.

Armour & Co., it is said, purpose building a two million dollar plant in Toronto. Matthew Blackwell it is also said, will invest four millions in a new plant there.

TRUCK ESSENTIAL TO EVERY FARMER NOW

Agriculturalists Consider Motor Conveyance as Important as Plow, Reaper, Etc.

That the average farm will consider it as necessary to have a motor truck as a plow, reaper, binder, etc., is the opinion of some of the country's most successful farmers. Particularly is this true in sections of the country where the heaviest crops are grown. While farmers are purchasing the 1-ton trucks and 1½-ton trucks for general farm haulage purposes, they are also investing in the heavier trucks of 3, 3½ and 5-ton capacity, as these sizes have proven particularly adaptable for hauling those crops, the weight of which makes their quick transportation almost an impossibility with horses. Users of motor trucks on farms say that they realize considerable saving not only of horses, but of manpower as one truck and a driver can take care of as much hauling as several men with several teams.

RESTRICTIONS ON GRAZING RIGHTS

Amendment to Act Whereby Small Farmers Will Get First Right On Open Land

To prevent the indiscriminate migration of cattle and livestock from one part of the province to another, to the detriment of the homesteader, Hon. Duncan Marshall announced in the agricultural committee that Hon. A. G. MacKay, minister of municipalities, was preparing an amendment whereby the man who resides in any municipality shall have the first right to any surplus grazing. It is proposed that men should not be allowed to run cattle at large in any part of the province unless they own some land in that part. The question is now being worked out as to what proportion of land shall be owned to the number of cattle allowed to run.

George Hoadley, leader of the opposition, said he heartily agreed with idea; that the hope of the livestock industry in the province in the future lay in the small owner. Martin Woolf (Govt.), Cardston, supported the proposal, as did also Fred Davis, Mr. Hoadley also denounced that practice of owners of large herds of sheep and cattle in the United States of driving them across the line to fatten them on Alberta grass without paying a cent of taxes.

CARE FOR THE MOTHER TO ENSURE GOOD PIGS

One of the Most Important Factors in Raising of Hogs

The proper development of young pig is affected very materially by the feeding and management of the brood sow. How often are pigs born weak in limb, and in some cases constitution, so that they either die young or mature very slowly. The feeding and management of the sow previous to giving birth is an important factor.

On the average farm the sows are wintered over very cheaply on refuse from the kitchen, perhaps a little milk and corn on the ear. This method of feeding, however, does not provide sufficient variety, neither does it provide a balanced ration suitable for the proper development of the young. A carbonaceous ration such as this would be generating too much heat and internal fat, so that the young are born over fat and more inclined to "thumps." Furthermore there would be an absence necessary to bone formation. Now provide with this poorly balanced ration insufficient exercise and one has ideal conditions for a litter of weak pigs where the mortality will be great. Frequently reports come in of litters dying within a few days of birth; it is safe to assume that the feeding had much to do with this.

Animal food in some form must be provided in order to furnish protein, or muscle and tissue building material. If sufficient milk is available the problem is solved. If it is not then tankage is the next best. In experiments conducted in Nebraska about 8 per cent of tankage was used to balance a ration, and it was considered satisfactory, although as high as 20 per cent. was fed to weaned pigs with good results.

Lieut. Elgin Campbell, a former Nanton boy, has received the Military Cross. Lieut Campbell does not expect to get back to Canada before August. His brother, Robert Campbell, who was wounded in the knee last summer, is still confined to bed in a hospital in England. The surgeons are trying to save his leg, but are uncertain whether they will be able to do it.

Mary's Letter to Florence

Dear Sister Florence:

In your last letter which we all read, Fred was most particularly impressed with your mention of the children. Of course we have only one, it is true, but Mary is now 17, and we are beginning to realize our grave responsibility towards providing her with happy company and healthful surroundings. You can't accomplish much along such lines in a shack. As Fred says, years ago we housed our horses and cows in sod barns and they paid us accordingly. Now we take care of them in real barns, and they return full interest on such investments. Should we count our children less than our stock?

Last evening "Hubby" drew a rough sketch of a parlor and den, with an enticing wide screened-in verandah. I am very hopeful.

Your loving sister,
Mary.

Showing at Blackie and Champion April 1 and 2

"Hearts of the World" required eighteen months in the making and many of the scenes were taken on the actual battlefields of France by Mr. Griffith, with the official aid and assistance of the British and French governments. Mr. Griffith, however, is anxious to remove any apprehension that "Hearts of the World" is primarily a war picture. It is, he announces, primarily a love story, in which war figures as a grim background. It may be called "the story of a village," and for more than forty minutes during the exposition of the story, there is not a cannon shot, not a suggestion of war's alarms. There is the pretty romance of two girls, each in love with the same man; there is the quiet and peaceful atmosphere of a small French town before the holocaust of the war. Then comes the conflict, with its ensuing effects upon the fortunes of those in the little village. The battle scenes shown are actual battle scenes taken right in the trenches during the death struggles of the French and the Germans; only occasionally has it been found necessary to piece the story of the battles together by means of acted scenes. Thus one sees the life in the trenches; the charge of the French soldiers; the thrilling hand-to-hand conflicts and the thrust of bayonets; the murder of the shells the great guns in action; the tanks; the attack by liquid fire; the charges and the retreat; the German pill boxes; the flight of the villagers; the ruthless destruction of property; the treatment of young girls who fall into the hands of the Germans; and other things too numerous to mention, the whole culminating in the arrival of American troops, of ultimate victory and a hint of future happiness for those who have endured this terrible struggle.

Mr. Griffith is anxious to have it understood that while "Hearts of the World" deals with war and love, it is a drama he has staged, rather than a propaganda film. Yet no one can sit through his wonderful pictorial representation of the tragedy of Bleeding France, without going forth more determined than ever that this conflict MUST be won, and that the ALLIES MUST triumph over their adversaries, and that such grim

horrors of war must never happen again in the history of the world. Prominent in the cast of "Hearts of the World" are the beautiful Gish sisters, Lillian and Dorothy, Robert Harron, George Fawcett, George Leigman, and other well-known players.

HON. CHARLES STEWART
Premier of Alberta.

Premier Stewart is doing all in his power to back up the National Thrift Campaign. In a statement recently issued he points out that the national wealth depends upon the economic efforts of the people; without their interest the country cannot face the financial future.

Mr. Frank McDonnell, of High River, was in Vulcan last Friday and Saturday.

VULCAN AND W. S. S.

As a result of the visit of Sergeant Gittus and the formation of W. S. S. committee Thrift Stamps are going to be brought directly to the notice of the people of Vulcan and district. Whereas it has been possible to obtain Thrift Stamps at the Post Office and Banks only, now they are in every store and place of business in town

They will be offered to you for your change when you make a purchase, and on every occasion you will be asked to take Thrift Stamps instead of money.

This will help you to save and the country to finance. Support the move; have a Thrift Stamp Card yourself and get every member of your family to have one as well.

Notice to School Districts Desiring to Hold School Fairs Commencing in the Spring of 1919

The Department of Agriculture at Edmonton purposes giving assistance in the organization, management and financing of School Fairs through the School of Agriculture at Claresholm. This notice has reference to the territory in Southern Alberta extending from the main line of the C.P.R. South to the boundary.

Briefly, the plan is that a committee of interested citizens shall be organized at the centre at which it is proposed to hold a Fair, which committee will share with the Department of Agriculture and Education the work and expense of the Fair. A group of from eight to twenty-five schools convenient to the centre will be selected. Garden seeds will be distributed through the committee to the pupils of these schools. The pupils will plant the seeds at home, care for the gardens during the Summer and in the Fall, exhibit samples of the products at a Fair. Girls will receive recipes and instructions in connection with the sewing and cooking that they will exhibit at the Fair.

For further particulars apply immediately to

W. J. STEPHEN, Principal,
School of Agriculture,
Claresholm, Alberta.
